PROFESSIONAL SUMMARY

Advanced Computer Engineering student with 5+ years of experience in customer service, technical support, and administrative roles. Bilingual (English/Spanish) professional with a proven track record at Amazon supporting retail and Alexa device customers. Skilled in C# / ASP.NET Core backend development, applying Clean Architecture and SOLID principles in personal projects. Proactive and results-driven, with strong communication skills and a commitment to continuous process improvement.

TECHNICAL SKILLS

Languages	C# (primary), Java, PHP, SQL, HTML / CSS / JavaScript
Frameworks	ASP.NET Core 8, React + Vite, Entity Framework Core, WinForms
Architecture	Clean Architecture, SOLID Principles, MVC, REST APIs, TCP Sockets
Auth & Security	JWT, Refresh Tokens, BCrypt, OTP Email Verification
Databases	SQL Server, Entity Framework Core migrations
Systems & Net	Linux, Windows, PC / Server Administration, Routers, Switches
Tools	Microsoft Office Suite (Word, Excel, Outlook, PowerPoint), Git, Swagger
Languages (Human)	Spanish — Native English — Professional Proficiency

PROFESSIONAL EXPERIENCE

Customer Service Associate – Retail <i>Amazon January 2022 – Present</i> - Provide end-to-end support to retail customers, resolving order issues, tracking shipments, and coordinating with third-party vendors. - Manage customer complaints and feedback, ensuring high satisfaction rates and long-term client retention. - Generate performance reports to identify service trends and propose process improvements. - Maintain and update customer databases to enhance service personalization and response accuracy.	Jan 2022 – Present
Logistics Assistant <i>Belina Industrial</i> - Controlled inventory levels, conducted weekly stock audits, and coordinated receipt and warehousing of raw materials. - Coordinated with external suppliers to ensure timely delivery and supply chain continuity.	Jan 2020 – Jan 2022
Alexa Device Customer Service Specialist <i>Amazon</i> - Resolved subscription billing issues and handled device returns and replacements for defective Alexa units. - Educated customers on Alexa updates, new features, and compatibility with third-party services. - Assisted customers with network configuration to optimize Alexa device performance. - Trained customers on advanced Alexa functionalities, reducing repeat contact rates.	Jan 2019 – Jan 2020

Administrative Assistant

Jan 2019 – Jan 2020

Transportes el Rayo

- Coordinated logistics and tracked deliveries with external providers to ensure on-time fulfillment.
- Managed inventory control processes and maintained accurate records of assets and supplies.

NOTABLE PROJECTS

AuthProject — Authentication System

C# / ASP.NET Core 8 · React + Vite · JWT · SQL Server · Clean Architecture

Full-stack authentication system with user registration, JWT + Refresh Token login, OTP email verification, and password recovery. Built following Clean Architecture with 4 clearly separated layers.

BUSUH — Bus Ticket Reservation System

C# / .NET 8 · WinForms · TCP Sockets · MVC · SOLID

Distributed system of 3 WinForms executables communicating via a custom TCP frame protocol. Includes terminal management, a multi-threaded reservation server, and a client with real-time seat maps.

Cinema REST API

C# · ASP.NET · REST API · SQL

REST API for a cinema platform with authentication, movie/theater management, order processing, and ticketing.

EDUCATION

Bachelor of Science in Computer Engineering (In Progress)

Universidad Hispanoamericana

Expected Graduation: December 2026

Technical Certification: Information and Communication Technologies

Instituto Nacional de Aprendizaje (INA)

2019

High School Diploma (Bachillerato)

Liceo de Miramar

2019
